DISCOVER INTELIFE

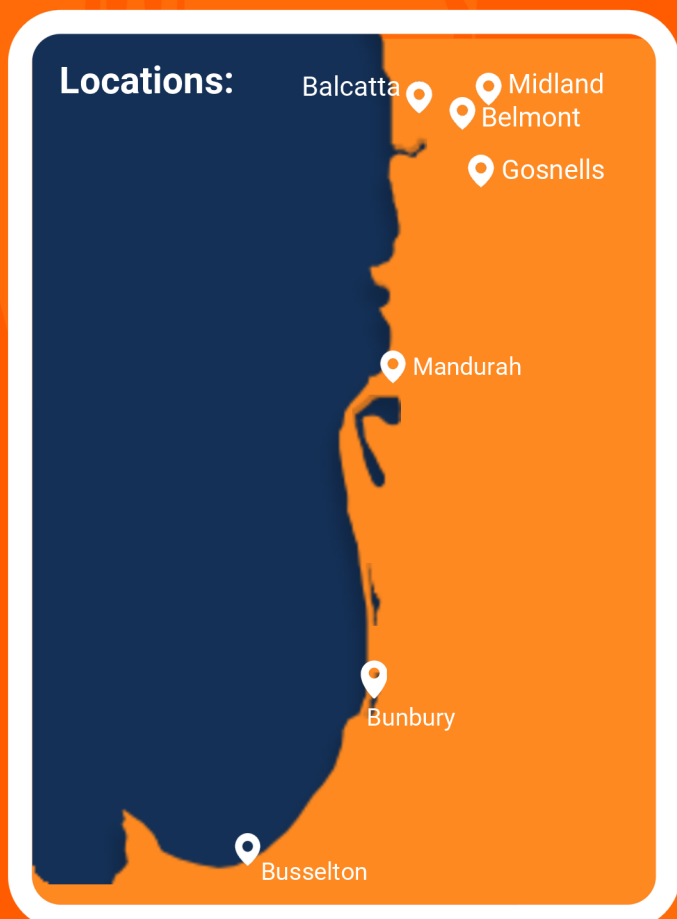

From Vision to Possibility

Intelife began in 1991, inspired by a group of parents who wanted more opportunities for their children with disability. What started as a small initiative soon grew into a movement - creating programs and services that empower people to live life on their own terms.

Today and Tomorrow

We've evolved into an organisation that listens, understands, and works alongside individuals, families, and communities to design supports that truly fit. From life skills and tailored activities to employment pathways and real-world work experience, we're here to help every person achieve their goals.

And we're not stopping here. We are creating even more opportunities and believe every individual deserves a life filled with choice, dignity, and possibility.
